PROFESSIONAL SUMMARY

Results-driven Data Analyst and MCA student with 2+ years of experience delivering ERP-based solutions, SQL report optimization, and full-stack software development. Proven track record of leading cross-functional teams on 5+ projects, reducing SQL execution time, and building customized dashboards for business clients. Seeking a data-driven or full-stack development role to leverage technical expertise and strong client communication skills.

TECHNICAL SKILLS

Languages & Databases: SQL, Python, JavaScript, HTML, CSS

Frameworks & Platforms Worked With: Angular, Jupyter Lab, Swagger

Reporting & Analytics: Power BI, SAP Crystal Reports, RDLC, Microsoft Excel

Specializations: ERP Customization, CRM Systems, Dashboard Development, Code Optimization, SQL Stored Procedures

WORK EXPERIENCE

Ramatek Solution | Data Analyst – CRM & Database Systems

Apr 2024 – Mar 2026

- Led a team of developers across 5+ ERP implementation projects, ensuring on-time delivery and high-quality output.
- Designed and optimized SQL stored procedures for reporting, significantly reducing query execution time and improving system performance.
- Built and customized ERP software dashboards tailored to textile and business management client requirements.
- Created professional report layouts using SAP Crystal Reports and RDLC for client-facing deliverables.
- Developed software solutions using Angular, ASP.NET, SQL, and REST APIs; performed testing via Swagger.
- Conducted client-facing requirement gathering sessions and managed CRM workflows to ensure satisfaction.
- Focused on code optimization and module enhancement across multiple production deployments.
